#### • Japanese Language Education

##### “Preliminary Japanese Language Intensive Program”

Pre-Intermediate level's Students (Japanese Language Proficiency Test Level N3) are given intensive Japanese courses 5 days/week for 16 weeks between October 2017 and February 2018 at Center for International Education and Research (CIER) for research activities started at April 2017.

After the intensive program, students can continue studying Japanese with other international students in order to improve the language ability further.

#### • Academic Training

Supervisor takes responsibility to advise the program students depending on their majors and needs. The students are required to take the professional classes and seminar in the lab. Registration of other classes aside from their research field would be acceptable if they want. Tutorial system is provided by an advisor considering each student's research subject.

No lectures are taught in English but the language might be used in advice on lectures, practice, individual guidance and daily life in supplementary means.

#### • Others

The student's position is research student. No credits are certified. Outside activities such as visiting and lecturing at affiliated schools (kindergarten, elementary school, junior high school, school for children with special needs), excursion and so on are held.
